Subject: River cleanup plan

Dear EPA,

I am terribly disappointed with the plan for cleanup of the Portland Harbor Superfund area.

I feel that your agency should be renamed the **Environmental Pollution Agency!**

As a taxpayer and supporter of efforts to restore our environment, I think it is absolutely appalling that your plan will cover only 14% of the Superfund site and that the small proportion of pollutants to be removed will just be dumped back into the river. This is worse than nothing, isn't it? The EPA is clearly bowing to pressure from the polluters and putting all of us at risk. Ouch!

Please rethink this losing, atrocious strategy.

Sincerely,

(b) (6)
Portland, Oregon
